

# Vehicle Safety Compliance Certification Scheme Bulletin 01

Published 12 May 2022 | Rev 212

Supersedes | Rev 211

## Licensed certifiers

If you have a significantly modified vehicle or a non-standard vehicle, it must be inspected by a NSW Government accredited representative, known as a Vehicle Safety Compliance Certification Scheme (VSCCS) licensed certifier or an Approved Vehicle Examiner.

**Light vehicles** - To determine what is a significant modification to a light vehicle, refer to [Vehicle Standards Information Sheet 6 \(VSI 6\)](#).

**Heavy vehicles** - Customers can refer to the [National Heavy Vehicle Regulator Code of Practice for Approval of Heavy Vehicle Modifications for Heavy Vehicle modifications](#). Following the introduction of the Heavy Vehicle National Law (HVNL), NSW now accepts modification certificates for heavy vehicles from other jurisdictions. Click [here](#) to find a national Approved Vehicle Examiners.

The HVNL requires Approved Vehicle Examiners to certify modified heavy vehicles. For VSCCS purposes an 'Approved Vehicle Examiner' is a licensed certifier licensed to certify vehicle components or vehicles with a GVM exceeding 4.5 tonnes.

## Vehicle and competency categories

Licensed certifiers are only authorised to assess vehicles and modifications within their particular areas of expertise. The table below sets out the vehicle and modification categories:

| Vehicle category                                       | Field of competency  |                               |                                     |  |  |                       |   |
|--|----------------------|-------------------------------|-------------------------------------|--|--|-----------------------|---|
|  | Modified vehicles    |                               |                                     |  |  | Whole vehicles        |   |
|  | Braking systems (C1) | Driving controls or aids (C2) | Seating or occupant protection (C3) | Engine, fuel systems or intake/ exhaust systems (C4) | Body, chassis or frame, suspension, steering, transmission or driveline, wheels, tyres or axles or lighting systems (C5) | Imported vehicle (IP) | All other vehicles (including individually constructed vehicle (AOV)) |
| Motorcycle (M)   | MC1                  | MC2                           | MC3                                 | MC4  | MC5  | MIP                   | MAOV  |
| Passenger vehicles (including buses <= 4.5 tonnes) (P) | PC1                  | PC2                           | PC3                                 | PC4  | PC5  | PIP                   | PAOV  |
| Bus GVM > 4.5 tonnes (B)                               | BC1                  | n/a                           | BC3                                 | BC4  | BC5<br>P* (Tow couplings)  | BIP                   | BAOV  |
| Light commercial (L)                                   | LC1                  | LC2                           | LC3                                 | LC4  | LC5  | LIP                   | LAOV  |
| Medium and heavy vehicles and trailers (H)             | HC1                  | HC2                           | HC3                                 | HC4  | HC5<br>J&P*(Body Fit & Tow Couplings)  | HIP                   | HAOV  |

**Please note:** where a certifier has licence sub-category only eg HC5.6 you should speak to the certifier to confirm that they are licensed to certify the type of modifications you have undertaken.

**Please note:** 'J&P' refers to the certification of modifications of body fitments and tow coupling/fifth wheels.

## Licensed certifiers

The table below shows a list of Transport for NSW approved VSCCS licensed certifiers as at the date of publication of this bulletin. This list is updated regularly.

Some licensed certifiers may provide a mobile certification service. You should discuss this with the individual licensed certifier.

✓ Indicates that no category restriction applies ie all categories for that vehicle type can be certified.

Contact VSCCS should you have any questions:
